OBJECTIVE

A surveying internship position to better understand and implement the professional field of surveying that will eventually lead to my licensure as a professional surveyor.

EDUCATION

- Bachelor of Science Surveying Engineering, Ferris State University, (May 2010).
- Surveying Engineering GPA 3.10/4.00

PROFESSIONALISM

Instrument Person

5/8/2008 — 8/27/2008

Orchard, Hiltz, and McCliment, Inc. Livonia, MI

- Worked on large construction staking jobs.
- Involved with large construction projects and layout for large bridge and road construction projects.
- Engaged in industrial surveying at a large steel mill, using high precision techniques to make sure furnace tail beams were at the correct elevation.

Construction Aid

5/7/2007 — 8/25/2007

Michigan Department of Transportation MDOT Howard City, MI

- Performed in-place density tests with a nuclear density gauge on a large scale road reconstruction project.
- Measured construction pay items quantities.
- Oversaw the contractor's work to make the sure the new road met MDOT specifications.

Survey Co-Op

5/7/2006 — 8/24/2006

Michigan Department of Transportation MDOT Lansing, MI

- Performed static GPS surveys on MDOT control points across the state of Michigan for the height modernization project.
- Recovered and identified MDOT right-of-way control points.

STEWARDSHIP

- Vice President of Burt and Mullett, Student Chapter of Surveying Engineering, Ferris State University, Big Rapids, MI
- Member of the Michigan Society of Professional Surveyors, MSPS, Lansing, MI
- Attended cancer benefit to raise money, Glen Eagle Golf Club, Hudsonville, MI
