

To All of the FSU students, faculty and staff.

I have heard from a few sources that many of the students believe that I did not show up to teach classes this fall.

That is not true, I have been a loyal employee for 13+ years working a 2 day schedule as a 9 month fulltime temporary faculty.

I work fulltime for Myers Land Survey Company with a reduce schedule of 3 days while teaching 2 days at FSU.

I receive my benefits from Myers Land Survey Company as long as I can work a minimum of 30 hours per week.

I was informed Monday just before my 2nd class that I would have to teach 3 days at FSU or a replacement would be hired to teach my class schedule for the 2007-2008.

Facing the lost of benefits and income with no alternatives being offered it was necessary for me to leave my position at FSU.

FSU provided me the opportunity to share and inspire the young professionals that will someday be following my footsteps.

Sincerely,

M E Myers
