

Western Land Services, Inc. is a motivated oil and gas brokerage service company providing land regulatory services to oil and gas companies and utilities. Our growing organization which has over 300 employees and operations in 27 states- including offices in Michigan, Wyoming, Kansas, Utah, New York, Ohio, Arkansas, and Pennsylvania - is seeking qualified individuals for GIS intern positions. The internship will be based out of our Ludington, MI office.

GIS Intern job duties (may include but are not limited to):

Incorporate GIS data from variety of sources with ability to convert data between various file types; maintain data layers: leasehold, pipeline, wells, parcels, etc. for several projects covering many states; produce maps for internal and client use so that intelligent leasing decisions can be made; analyze datasets to provide answers for internal use.

Recommendations:

- 1 year experience working with ESRI ArcGIS software, CAD or Drafting preferred
- Knowledge of ESRI Geodatabase design structure and management, as well as general database knowledge, including the manipulation of tabular data in GIS, and summarizing, joining, and linking related data;
- Experience working with land records maintenance including land surveys, coordinate geometry (COGO) and reading legal descriptions;
- Strong communication skills and attention to detail;
- Ability to work independently as well as collaboratively with co-workers and clients;

Details:

- The internship starts May 12th (possibly earlier if you are available) in Ludington, MI
- \$10-\$14 hour depending on Education, Skill level, Experience, etc.
- Hours are from 8am – 5pm with an hour for lunch, Monday - Friday.
- Overtime available paid at time and half.
- End of summer bonus
